

SUVO Brun XL Industri

Oil/wax-based antirust product

SUVO Brown XL industry is a light brown oil/wax-based product with effective anti-rust inhibitor added. It has excellent corrosion protection and moisture displacement abilities. Leaves a tough wax layer.

Range of application:

Suitable for all types of steelwork requiring long-term corrosion protection. Also suitable as temporary transport protection when the product needs to be removed afterward.

Package

01-190 / 20-lit can
01-191 / 60-lit drum

Instructions for use:

The items must be clean, dry and free of dirt. Do not apply below +8° C. The product must be stirred strongly or shaken then make more nice viscosity. Apply with brush or roller, a good quality which is suitable for oil products, or airless spray gun.

Technical data	
Color:	Light brown
Consistency:	Gel/wax
Type of film:	Medium/Hard wax
Density:	200-250 mPas
Dry content:	<50%
Volatiles solvents:	>40%
Film thickness:	80 – 100 µm
Application temperature:	15 – 35° C
Removal with:	Clairsolrens, Clearrens or LHG Rensevæske
Drying time:	12 – 24 hours
Storing temperature:	5 – 25° C
